FOURTH QUARTER 2011 AND FULL YEAR 2011 FINANCIAL RESULTS

Net Revenues

Net revenues for the fourth quarter of 2011 were US\$14.4 million, essentially flat compared with the corresponding period in 2010. An increase in net revenues in recurring service fees offset a decline in net revenues in one-time commissions for the fourth quarter of 2011.

Net revenues from one-time commissions for the fourth quarter of 2011 were US\$7.5 million, a 27.0% decrease from the corresponding period in 2010. The year-over-year decrease was primarily driven by declines in both transaction value and the average transaction value per client.

Net revenues from recurring service fees for the fourth quarter of 2011 were US\$6.9 million, an 87.7% increase from the corresponding period in 2010. The year-over-year increase was mainly due to the cumulative effect of private equity fund and securities investment fund products distributed previously.

Net revenues for the full year 2011 were US\$72.2 million, a 90.6% increase from 2010. The year-over-year increase was attributable to an increase of US\$20.4 million in one-time commissions and an increase of US\$13.9 million in recurring service fees.

Net revenues from one-time commissions for the full year 2011 were US\$49.6 million, a 69.7% increase from 2010. The year-over-year increase was primarily driven by a significant increase in aggregate value of wealth management products distributed by the Company.

Net revenues from recurring service fees for the full year 2011 were US\$22.5 million, a 161.5% increase from 2010. The year-over-year increase was mainly due to the cumulative effect of private equity fund and securities investment fund products distributed previously.

Operating Margin

Operating margin for the fourth quarter of 2011 was 14.5%, as compared to 43.4% for the corresponding period in 2010. **Operating margin** for the full year 2011 was 34.8%, as compared to 41.4% for 2010. The year-over-year operating margin decreases for the fourth quarter of 2011 and the full year 2011 were primarily due to an increase in operating cost and expenses resulting from the Company’s expansions outpacing its net revenue growth.

Operating cost and expenses for the fourth quarter of 2011, including cost of revenues, selling expenses, G&A expenses and other operating income, were US\$12.4 million, a 56.0% increase from the corresponding period in 2010. **Operating cost and expenses** for the full year 2011 were US\$47.1 million, a 112.2% increase from 2010.

Cost of revenues for the fourth quarter of 2011 totaled US\$3.8 million, a 48.8% increase from the corresponding period in 2010. **Cost of revenues** for the full year 2011 totaled US\$14.8 million, a 125.3% increase from 2010. The year-over-year increases for the fourth quarter 2011 and full year 2011 were primarily due to increases in compensation expenses paid to relationship managers mainly as a result of the expansion of the Company’s sales force.

Selling expenses for the fourth quarter of 2011 were US\$5.4 million, a 53.5% increase from the corresponding period in 2010. Selling expenses as a percentage of net revenues for the fourth quarter of 2011 was 37.5%, as compared to 25.2% for the corresponding period in 2010. **Selling expenses** for the full year 2011 were US\$19.3 million, a 126.9% increase from 2010. The year-over-year increases for the fourth quarter of 2011 and full year 2011 were primarily due to increases in personnel expenses, rental expenses, client service fees, share-based compensation expenses and office expenses as a result of the Company’s network expansions.

G&A expenses for the fourth quarter of 2011 were US\$3.1 million, a 71.0% increase from the corresponding period in 2010. G&A expenses as a percentage of net revenues for the fourth quarter of 2011 was 21.7%, as compared to 13.1% for the corresponding period in 2010. **G&A expenses** for the full year 2011 were US\$13.6 million, an 85.9% increase from 2010. The year-over-year increases for the fourth quarter of 2011 and full year 2011 were primarily due to increases in rental expenses, expenses related to employee activities and trainings.

Income Tax Expenses

Income tax expenses for the fourth quarter of 2011 were US\$0.4 million, a 76.9% decrease from the corresponding period in 2010. The year-over-year decrease was primarily due to a decrease in taxable income and an increase in deferred tax income.

Income tax expenses for the full year 2011 were US\$7.8 million, a 62.4% increase from US\$4.8 million in 2010. The increase was primarily attributable to an increase in taxable income.

Net Income

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized significant amounts of expenses for the restricted shares and share options in the periods presented. To make financial results comparable period by period, the Company utilized the non-GAAP financial results to better understand its historical business operations.
