

Noah Holdings Announces US\$50 Million Share Repurchase Program

Aug 28, 2024

SHANGHAI, Aug. 28, 2024 /PRNewswire/ -- Noah Holdings Limited ("Noah" or the "Company") (NYSE: NOAH and HKEX: 6686), a leading and pioneer wealth management service provider offering comprehensive one-stop advisory services on global investment and asset allocation primarily for Mandarin-speaking high-net-worth investors, today announced that as part of its commitment to enhancing shareholder returns, the board of directors of the Company (the "Board") authorized a share repurchase program under which the Company may repurchase up to US\$50 million of its American depositary shares or ordinary shares, effective immediately. The authorized term for carrying out this share repurchase program is two years.

The Company announced in November 2023 that a new capital management and shareholder return policy (the "Policy") had been adopted, pursuant to which up to 50% the Company's non-GAAP net income attributable to shareholders of the preceding financial year will be allocated to a Corporate Actions Budget which will serve various purposes, including dividend distribution and share repurchases. The share repurchase program announced today does not form a part of the Corporate Actions Budget under the Policy. The Corporate Actions Budget based on the Company's financial performance in 2024 is expected to be determined and announced alongside the Company's earnings results for the fourth quarter and full year ending on December 31, 2024.

The share repurchases under the repurchase program announced today will be carried out from time to time on the open market at prevailing market prices, in privately negotiated transactions, in block trades or through other legally permissible means, depending on market conditions and will be implemented in accordance with applicable rules and regulations. The Board will review the share repurchase program periodically and may authorize adjustments of its terms and size. The Company expects to fund repurchases made under this program from its existing cash balance and cash generated from operations.

Ms. Jingbo Wang, co-founder and chairwoman of Noah, commented, "This share repurchase program, along with the dividend payout we just completed, reflects our unwavering commitment to prioritizing shareholder interests and delivering sustained returns. While China's wealth management industry is navigating a challenging period and undergoing a transition, we remain confident in Noah's unique advantages stemming from our deep understanding of Mandarin-speaking high-net-worth individuals' (HNWIs) needs and our ability to deliver products and services to this still-growing client base. We are one of a few independent firms that maintains access, through years of investor education, to a large group of qualified individual investors who continue to seek professional services."

"As such, we believe that our stock is deeply undervalued and does not reflect our growth prospects, robust balance sheet and cash reserves, or the special bond we have formed with the Mandarin-speaking HNWIs globally. We value both our long-term and new shareholders and are committed to sharing our success with them through more proactive capital allocation policies moving forward."

Full Year 2023 Dividend Payout

In late July and early August 2024, Noah rewarded shareholders with a record RMB1,018 million (approximately US\$140.1 million) dividend payout for full year 2023, equivalent to 100% of its annual non-GAAP net income, including the final dividend under the Policy and a special dividend.

Capital Management and Shareholder Return Policy

In November 2023, the Board adopted the Policy where up to 50% of the Company's non-GAAP net income attributable to shareholders of the preceding financial year will be allocated to a Corporate Actions Budget which will serve various purposes, including dividend distribution and share repurchases.

Under the Policy, no less than 35% of the Company's non-GAAP net income attributable to shareholders of the preceding financial year will be allocated toward dividends to be distributed in each calendar year, subject to various factors.

The Corporate Actions Budget based on the Company's financial performance in 2024 is expected to be determined and announced alongside the Company's earnings results for the fourth quarter and full year ending on December 31, 2024.
